

ZORN ACC 4

Transport Case for LWD

DETAILS

- Length: 123 cm
- Width: 42 cm
- Height: 40 cm
- Weight: 12 kg

1

Even when things go upside down. Safe storage and transport protection for your ZORN ZFG Light Weight Deflectometer (LWD) is guaranteed. Carry up to two loading devices (10 & 15 kg) and all other LWD components in only one case. All equipment parts will stay in place, thanks to optimized foam inserts and corresponding adhesive tape.

2

The sturdy though lightweight ACC4 is weatherproof and has a circumferential splash-protection seal. Rubber sealed handles are ergonomically shaped and foldable. Extra robust metal locks open and close easily.

ACC 4 is the optimal packaging for transport and storage of your ZFG Light Weight Deflectometer. It is stackable and suitable for air freight and can optionally be equipped with wheels suitable for construction sites.
